

Spa Menu 2024

The Anazoe Spa experience offers a full range of specialty treatments based on health and beauty practices of ancient Greece, utilizing the region's exclusive natural and revitalizing ingredients, as well as products from around the globe. Our 4,000 m² spa introduces an exotic blend of age-old treatments that have been handed down from generation to generation, harmoniously combined with the discoveries of modern science.

Treatments are performed to the accompaniment of soothing music based on ancient Greek modes and scales. The ancient Greeks believed music to be divine, capable of healing both body and soul.

The name – Anazoe – derives from the Greek word for rejuvenation and encapsulates the underlying aim of the spa, which is total revitalization of body and spirit in accordance with the ancient Greek maxim “a healthy mind in a healthy body”.

Oleotherapy® Signature Treatments

At Anazoe we have developed signature treatments that constitute a harmonious combination of ancient wisdom and modern science. The therapeutic olive-oil treatments (oleotherapy®) are based on local practices inscribed on clay tablets discovered at the nearby Palace of Nestor. Many of the therapies expand on the ideas and knowledge of Hippocrates, known in the West as the father of medicine, who described olive oil as “the great therapeutic”. Building on this ancient knowledge, treatments are totally individualized to address your personal ‘type’ and specific needs, identified through a questionnaire and private consultation. European massage techniques using select products are then combined with the appropriate mix of treatment technologies and aromatherapy, to the accompaniment of therapeutic music composed exclusively for Anazoe, to offer a total spa experience with visible results.
