

# Welcome To The St. Regis San Francisco

Outdoor festivals. Sailing the bay. Exploring the Lands End and Presidio trails. As we say goodbye to spring, our attention turns toward summer activities with friends and family. With that in mind, we welcome you to summer in San Francisco! We invite you to breathe in the fresh sea salt air off the Golden Gate Bridge while taking a bike excursion into the town of Sausalito. Or dip your toe in the beautiful Pacific Ocean off Ocean Beach. There are many opportunities for fun and adventure in our city by the bay. And San Franciscans don't shy away from a good time. Expect some of the best outdoor festivals, including the Fillmore Jazz Festival, Nihonmachi Street Fair in Japantown and the ever-popular Outside Lands Concert Weekend. Join us for a spectacular July 4th Celebration or bring a picnic and enjoy the coolest live performances at Stern Grove.

Of course, summer in San Francisco means more than "fun in the sun" (or fog, as the case may be). We are a top destination for the arts, theatre, and dining. Look no further than the Concierge team at The St. Regis who are eager to assist with all aspects of your visit. It would be our pleasure.

And finally, it's always a good reminder to those visiting our beautiful city that temperatures can remain crisp. You may want to have a sweater or light jacket handy as you enjoy the many sights and sounds of San Francisco. Though fear not, you're sure to run into more than one kiosk selling San Francisco logoed sweatshirts. You'll be fine.

On behalf of all of us at The St. Regis San Francisco, we wish you a wonderful stay.

Daniel Rey  
Chief Concierge

### *Folsom Street Fair*

09/24

A street fair like no other, Folsom Street Fair brings the LGBTQ community out for a day of fetish and leather! Don't be shy!

[www.folsomstreet.org](http://www.folsomstreet.org)

# When in San Francisco...

## Places Of Interest

### Alcatraz

No prison has been made more popular in books and movies than the one on Alcatraz. This small island on the San Francisco bay however, has a story that extends far beyond the famed penitentiary. Named initially Isla de Los Alcatrazes (Isle of the Pelicans), Alcatraz Island became a part of the U.S. in 1849. During the 1850's, a fortress was built and cannons installed as, along with much of the nearby Pacific coastline, Alcatraz aided in protecting the entry into the bay, dubbed the Golden Gate. The first inclinations of what was to come appeared as the U.S. Army began holding military prisoners in the late 1850's.

Alcatraz is best known, however, for the famed gangsters and notorious criminals that were sent to "The Rock" after a maximum-security federal prison was built, which began operations in 1934. No one escaped, and those who managed to free themselves and dive into the chilly bay waters were never heard from again. Still, it's thought that a few may have made it across. Now owned by the National Park Service, a limited number of tickets are sold daily. It's best to plan ahead to ensure a day and time that works for you.

[www.cityexperiences.com](http://www.cityexperiences.com)

### Coit Tower and the Filbert Steps

A wealthy eccentric and patron of San Francisco's firefighters, Lillie Hitchcock Coit left a large amount of money after her passing for the sole purpose of erecting a monument to her beloved firefighters, including those who fought the fires that engulfed much of San Francisco after the 1906 earthquake. Contrary to popular belief however, the tower was not designed to resemble the end of a fire hose. Purchase tickets for an elevator ride to the top for a spectacular 360-degree view of the city. Within its walls are murals painted by muralists who were influenced by such famed artists of the time as Diego Rivera and Raoul Dufy.

If you are keen to a workout and beautiful views of the bay, why not take the Filbert Steps beginning from the Embarcadero (waterfront) up Telegraph Hill, with Coit Tower as your reward? Or make it easier on yourself and take the steps heading down. The views will still be there.

### The Presidio & Crissy Field

Once belonging to the native Ohlone people, the Presidio and the surrounding area that is now San Francisco became the northernmost outpost for the Spanish empire in western North America. After being acquired by Mexico and eventually the U.S., the United States Army established a military post on the Presidio grounds in 1847. The Presidio served as a military post through to the Vietnam War. A memorial bears the names of the 413 members of the armed forces who were lost or buried at sea in U.S. Pacific waters over World War II. Now the Presidio is a place of peace and reflection, offering hiking trails amongst the woods throughout. Many of the classic barracks have been refurbished or reimagined with restaurants or campuses such as Industrial Light and Magic.

An extension of the Presidio, it was recommended by a board of Army officers after the 1915 Panama-Pacific International Exposition that the vacant bayfront, now called Crissy Field, should become a site for an Air Coast Defense Station, supplementing the artillery defenses around San Francisco Bay. Named in honor of Major Dana Crissy, this airfield helped develop the air power that proved essential in winning World War II. Now a beautiful open area with reclaimed marshes, Crissy Field is ideal for a stroll, jog or a run.

*\*UPDATE\* - A bold and ambitious project known as the Presidio Tunnel Tops now connects the two! Make your way from one to the other over grass and manicured greens situated atop two new tunnels, taking motorists from the Golden Gate Bridge into the city proper. Enjoy a picnic or just take in the views atop this innovative landscape.*

# When in San Francisco...

## *Places Of Interest*

### *Golden Gate Bridge*

Guests often think the bridge was named after its golden appearance in the distance. Actually, the official color is International Orange. The bridge was built across an important entry into the U. S., often referred to as the golden gateway. With a span of 1.7 miles, The Golden Gate Bridge opened to the public in 1937. No one could've predicted just how iconic the structure would be to our city.

When visiting the bridge, be sure to stop by Fort Point, located directly underneath on the south (San Francisco) side of the bridge. During the bridge's planning stages, the thought was to demolish this Civil War-era fort. After a massive outcry from residents, an alternate plan was adopted, with an updated design that would have the bridge built over the fort, thus saving this historical sight for future generations to come.

### *Twin Peaks*

One of San Francisco's highest points, Twin Peaks offers a spectacular vista of San Francisco and the surrounding areas. Many of our iconic landmarks can be seen from this vantage point. If you are up for a good hike, some paths will take you to the viewing area. The payoff will be well worth it!

### *Golden Gate Park*

It's hard to believe that a swath of land that is longer than New York's Central Park was once nothing more than wind-swept dunes. Construction began in 1870 and would eventually encompass 1,017 Acres. Over the years, lakes and unique gardens were added, among them the Japanese Tea Gardens, the Botanical Gardens as well as the AIDS Memorial Grove. Enjoy a paddle boat on Stow Lake or rent a bike. You might even come across a corral of bison!

---

## Did You Know?

### *Angel Island*

Have you heard of the Ellis Island of the West Coast? Welcome to Angel Island. Located adjacent to Alcatraz Island, Angel Island was the processing center for immigrants. Each immigrant, regardless of their country of origin, was looking for a better way of life during the turn of the century. Though Angel Island immigrants were from a variety of countries including Australia, Canada, Mexico as well as Central and South America, it was the Asian community who began arriving during the middle of the 19th century. Immigrants were greeted by cold wooden

barracks rather than the Statue of Liberty as in the East. Now a California state park, Angel Island still houses the barracks and facilities. Learn some history by way of this unique window into the human experience. Or grab a snack and rent a bike while enjoying the views of Alcatraz, the Golden Gate Bridge and the San Francisco skyline. The Concierge team can offer times for ferry departures from Fisherman's Wharf.

# ...And While in the Park

## *Conservatory of Flowers*

Calling it a greenhouse doesn't do justice to the Conservatory of Flowers. Opened in 1879, this unique structure is the oldest wood-and-glass conservatory in North America. Take the audio tour as you see first-hand an incredible array of unique and exotic plants from many regions.

[www.conservatoryofflowers.org](http://www.conservatoryofflowers.org)

## *California Academy of Sciences*

Much has changed since the California Academy of Sciences opened its doors in 1853. Once drawing thousands of visitors to gawk at the taxidermied grizzly bears or the giant woolly mammoth, much of the collection was lost during the 1906 earthquake. The Academy persevered and now showcases incredible exhibits such as the Steinhart Aquarium, a cool Planetarium, and a Living Roof. They've even recreated a Rain Forest! There is so much more to see, learn and enjoy.

[www.calacademy.org](http://www.calacademy.org)

## *The DeYoung Museum*

A must-visit when in the park, the DeYoung Museum originated as the Fine Arts Museum with construction beginning in 1894, in time for the California Midwinter International Exposition. Named for the chair of the exposition organizing committee, Michael H. de Young, the museum has grown from an attraction originally designed to temporarily house an eclectic collection of exotic oddities to becoming the foremost museum in the western U.S. concentrating on American art, international textile arts and costumes, as well as the art of the ancient Americas, Oceania, and Africa.
