

BREATHE EASY IN A PURE ENVIRONMENT

COURTYARD[®]
BY MARRIOTT

To reserve your room, call
800.MARRIOTT or visit
Marriott.com/Courtyard

- Asthma and allergy sensitive travelers notice a refreshing difference in a PURE room compared to a standard room.
- Many guests comment they wake up with a renewed energy they've never felt before.
- The air is completely circulated at least four times per hour, filtering out 99% of the impurities. It is the purest air found in an indoor hotel environment.
- In a PURE room, all bedding and pillows are encased in a protective and comfortable covering that is mold-proof, spore-proof, hypoallergenic, dust-proof and dust mite-proof.
- The in-room air purification system is a Class II medical device recognized by the FDA.
- In a PURE room you have entered a PURE-LY refreshing environment that caters to every traveler that cares about the air they breathe!
